TECH SKILLS

Programming languages:

- JavaScript / Typescript
- CSS Modules / CSS in JS
- Python

Databases:

- MySQL, PostgreSQL, SQLite
- Hasura (GraphQL backend), RethinkDB, MongoDB

Miscellaneous:

- SEO / SEM / a11y / i18n
- Progressive Web Apps (PWA)
- Responsive Web Design (RWD)
- Atlassian (Jira, Confluence) / Github Projects / Microsoft 365 / ClickUp / Asana / Notion / Google Cloud

PROFILE

Versatile Web Developer with 15+ years of combined experience in software engineering and product management. Expert in building scalable applications (React, Next.js) for complex monitoring systems and booking engines. I offer a unique blend of deep technical skills and strategic business mindset, managing end-to-end delivery from architecture to market launch (SEO/Ads). Passionate about leveraging Python and AI to solve real-world business problems.

EXPERIENCE

AI Greener

Product Developer / Consultant

05/ 2021 - Present

Role Summary: Managing the full lifecycle of digital products - from concept and UX/UI design to advanced frontend implementation. Helping businesses scale through process optimization, data analytics, and automation solutions.

- **End-to-End Development:** Manage the full lifecycle of digital products - from concept and UX/UI to deployment.
- **Process Automation:** Optimize business operations by conducting audits and implementing low-code automations (Make.com) alongside AI-driven features.
- **Frontend Architecture:** Build high-performance, scalable user interfaces utilizing the Next.js and TypeScript ecosystem.
- **Digital Strategy & Data:** Implement web analytics (GTM, GA4) and SEO strategies to maximize product visibility and conversion rates.

CodiLime Sp. z o.o.

2 years 10 months

Frontend Engineer

05/ 2021 - 03/2024 | Developing next-gen network & cloud observability platforms

- Built modern UIs for real-time monitoring, infrastructure tools, and intelligent log platforms
- Accelerated incident detection speed by ~80% for end-users by engineering high-performance real-time visualization dashboards offering capabilities from AI-powered correlation to full-stack visibility
- Maintenance scalable desing UI system in reusable components and app-specific features (role management, organization switching)
- Collaborated with cross-functional teams (Backend, UX, DevOps)

Notable Projects and tech stack:

[selector.ai](#): UI portal for real-time monitoring, visualization, and management of complex network and cloud infrastructure systems. **[Case Study](#)**
React.js, Typescript, MobX, REST, MobX, Ant Design, Highcharts, NestJS, MongoDB, AG Grid

[fluxninja.com](#): Startup developed in close collaboration with the client to build an innovative platform for Site Reliability Engineers (SREs), focused on disaster prevention and recovery in Kubernetes (K8s) cloud environments. **[Case Study](#)**

React.js · Next.js · REST · GraphQL, Material UI, Charts.js, Hasura, GCP, Framer Motion

 **PKP Informatyka Sp. z o.o.**
1 year 5 months

Senior Web Developer
01/ 2020 - 05/2021 | Modernizing the national railway ticket booking platform

- Developed a new version of the [bilkom.pl](#) web application
- Collaborated with the UX team to improve user experience, especially for multi-ticket booking workflows. [Sample Showcase](#)
- Improved performance by ~20% through reusable, modular UI components

React.js, Redux, MaterialUI, CSS in JS, Git, Figma, Adobe, Atlassian

 **Reall Sp. z o.o.**
6 months

Frontend Developer / UX Designer
04 - 09/ 2019 | Building accessible HealthTech solutions in a startup environment

- Secured successful entry into the Google for Startups accelerator by delivering a high-fidelity Vue.js MVP aimed at improving the quality of life for elderly users
- Crafted user-centric prototypes and responsive layouts with reusable design components
- Supported company operations and planning contributing to strategic decision-making

Vue.js, NoSQL, REST, Bootstrap, SCSS, Git, Adobe, ClickUp

 **CRI Poland Sp. z o.o.**
1 year 5 months

Solution Owner
10/ 2017 - 03/2019 | Leading internal digital transformation and data governance

- Reduced administrative processing time by 20% by leading a company-wide digital transformation and integrating the Comarch Optima ERP system
- Ensured 100% data compliance by orchestrating the implementation of GDPR (RODO) protocols and managing MSSQL databases

 **Travel Agency Najlepsze Wakacje**
8 years 5 months

CoOwner/ Product Developer
01/ 2009 - 05/ 2017 | Scaling a travel business through digital channels and e-commerce

- Designed and developed UX-driven booking app [www.pogotowieurlopowe.pl](#) and email campaigns to boost engagement and conversions
- Executed data-driven marketing across SEM, GDN, and social media channels.
- Managed full business operations, from negotiating provider contracts to office design and equipment procurement

 **EDUCATION**

2024 - 2025

 Polish-Japanese Academy of Information Technology
Postgraduate Studies (Python - Artificial Intelligence Programming)

2004-2008

 Faculty of Mechatronics, Warsaw University of Technology
B.Sc. in Mechanics and Machine Design (Precision Engineering)
